Subject: Arconic, Inc. Massena, New York Facility, EPA I.D. NYD002232304 (formerly Alcoa Inc.)
Approval to Re-Open Existing Cell 3 of the Chemical Waste Landfill; EPA Review of Proposed
Cell 3 Expansion

Dear Ms. LaPosta;

This letter provides written notification from Arconic of its acceptance of, and intention to comply with, the terms and conditions of the approval from the United States Environmental Protection Agency, Region 2 (EPA) to re-open existing Cell 3 of the chemical waste landfill at Massena, New York as provided in your letter dated November 9, 2016. Arconic understands that Cell 3 is approved for the disposal of waste containing polychlorinated biphenyls (PCBs). The chemical waste landfill has been designated by EPA as the "Arconic/Alcoa landfill", except where it is otherwise designated as the Alcoa landfill in previous letters and documents.

Arconic has also submitted separately the design of a proposed expansion of Cell 3, which is under review by EPA and that has already received partial approval from NYSDEC. Arconic understands that this expansion of Cell 3 requires a future, separate approval from EPA.

If you have any questions, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "L. McShea", is written over the word "Sincerely,".
